# AMP20EU | Targus Green Laser Professional Presenter

Present like a professional and control your computer remotely, using just one device – the Targus Green Laser Professional Presenter. Thanks to the remote's 2.4GHz cordless technology, you can control your PC as if you're using a mouse, all from up to 15 metres away. The Targus Green Laser Professional Presenter will give you the freedom to concentrate on your Microsoft PowerPoint or Apple Keynote™ presentation, without having to worry about making mistakes. The mini USB receiver stores neatly inside the remote when it's not in use for added convenience.

The new Targus Green Laser professional presenter has been designed to compliment your professional image. It is engineered with a green laser to work on all display types from canvas to LED screens. It is surrounded by an aluminium casing for increased durability. Its features include Cursor and Volume control, a cover that slides to prevent you from pressing the wrong button and it is wireless to up to 15 meters. The USB receiver is easily stowed inside the presenter.

- 2.4GHz wireless presentation control
- Green Laser pointer for clear presenting on all display types
- Stow and go wireless receiver.
- Mouse cursor control, to manage interactive content
- Page forward/backward control
- Audio control
- Dark screen control
- Presenter/cursor mode selector
- Backlit keys for easier presenting in low lit environments
